SENIOR LEADERS FORUM 2018

Creating a smarter future for a complex world – The future of government

Brett Bundock, Managing Director
Boustead Geospatial Technologies, Esri South Asia, Esri Australia

Establish an innovation strategy

Assess digital maturity

- 
- The background features a dark blue space filled with a complex network of glowing blue lines and nodes. On the right side, a human brain is depicted as a glowing cyan wireframe mesh, with numerous red and pink spheres of varying sizes scattered across its surface and in the surrounding space. Some of these spheres are connected to the brain's mesh. The overall aesthetic is high-tech and digital, suggesting themes of artificial intelligence, data processing, and cognitive science.
- Interoperability
 - Digital twins
 - Entrepreneurial government
 - Technology-based transformation

Interoperability – seamless information sharing

Digital twins for predictive decision-making

A close-up photograph of a person's hands holding a smartphone. The person's right hand is positioned over the screen, with the index finger touching a point. The phone is held in the left hand. The background is dark and filled with out-of-focus, colorful bokeh lights in shades of white, yellow, blue, and red, suggesting an urban night scene. A semi-transparent dark blue horizontal bar is overlaid at the bottom of the image, containing white text.

Entrepreneurial government – commercial thinking

Technology-based transformation – consumers drive change

Next horizon – Industry 5.0
